Returns and refund window

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Customers may request a refund within 30 calendar days after delivery. The item must be unused and returned with its original packaging, accessories, and proof of purchase. The refund window begins on the delivery date shown by the carrier, not the order date.

How it works

Start a return from the order history page or contact support with the order number. After the warehouse inspects an eligible return, the refund is sent to the original payment method within seven business days. Banks may take additional time to post the credit.

Limits and exceptions

Final-sale items, gift cards, and personalized goods are not refundable unless they arrive damaged or defective. A request made after 30 days may be reviewed by support, but an exception is not guaranteed.

Key facts

- Refund requests: 30 calendar days from delivery.
- Eligible refunds are issued within 7 business days after inspection.
- Gift cards and personalized goods are final sale.

Try asking

- *How long does a customer have to request a refund?*
- *How soon is an approved refund issued?*

Shipping methods and delivery estimates

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Standard domestic shipping is free for orders of at least 50 dollars and normally arrives in five to seven business days. Orders below that threshold have a 6 dollar standard shipping fee. Delivery estimates begin after the order leaves the fulfillment center.

How it works

Express shipping costs 14.95 dollars per order and normally arrives within two business days. Express service is available only for addresses in the contiguous United States. Weekend and public-holiday delivery is not included in these estimates.

Limits and exceptions

Canadian shipping uses a flat 25 dollar fee and normally arrives in seven to twelve business days. Customs charges, if any, are collected by the carrier and are not included in the shipping fee. PO boxes are not eligible for express delivery.

Key facts

- Standard shipping is free from 50 dollars; otherwise it costs 6 dollars.
- Express shipping costs 14.95 dollars and takes about 2 business days.
- Canada shipping costs 25 dollars and takes about 7-12 business days.

Try asking

- *What is the express shipping cost?*
- *How long does Canadian shipping usually take?*

Product warranty coverage

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Most Northstar electronic products include a limited two-year warranty beginning on the purchase date. The warranty covers defects in materials and workmanship during normal household use. A valid receipt or order confirmation is required to establish the warranty period.

How it works

To open a claim, provide the product serial number, proof of purchase, and a short description of the fault. Support may request photographs or a diagnostic check. If the claim is approved, Northstar may repair the product or replace it with an equivalent model.

Limits and exceptions

The warranty does not cover accidental damage, liquid exposure, unauthorized repairs, normal cosmetic wear, or commercial use. Batteries have separate coverage for one year. Shipping to the repair center is paid by the customer unless local law requires otherwise.

Key facts

- Most electronics have a 2-year limited warranty.
- Batteries have a separate 1-year warranty.
- Accidental damage and unauthorized repairs are excluded.

Try asking

- *How long is the standard electronics warranty?*
- *Does the policy cover accidental damage?*

Annual subscription billing

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

An annual subscription is billed once each year on the anniversary of the date the subscription started. The first charge occurs when the customer confirms enrollment. The renewal date is shown in Account Settings and in the confirmation email.

How it works

Northstar sends a renewal reminder at least seven days before the next annual charge. The reminder includes the renewal price and a link to manage the plan. The payment method saved to the account is charged automatically unless the subscription is cancelled before renewal.

Limits and exceptions

A price change applies only to a future renewal and is announced in advance. Taxes are calculated using the billing address. If payment fails, access continues for three days while the customer updates the payment method.

Key facts

- Annual plans renew on the enrollment anniversary.
- A renewal reminder is sent at least 7 days in advance.
- Failed payments receive a 3-day grace period.

Try asking

- *When is an annual subscription billed?*
- *How many days before renewal is the reminder sent?*

Order cancellation and changes

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

An order can be cancelled without charge while its status is Processing. Once a shipping label is created, the fulfillment center may be unable to stop the parcel. Customers should use Order History to check the current status before contacting support.

How it works

Address corrections are accepted before packing begins. A customer must provide the order number and the corrected address. Support cannot redirect an order after the carrier has accepted it, but the carrier may offer a paid forwarding service.

Limits and exceptions

A cancellation request for a personalized or made-to-order item is accepted only within one hour of purchase. After that point, production may have started. Refund eligibility for cancelled orders follows the original payment method rules.

Key facts

- Processing orders can be cancelled without a fee.
- Address changes stop when packing begins.
- Made-to-order cancellation window: 1 hour.

Try asking

- *When can a customer cancel an order without a fee?*
- *Can an address be changed after carrier pickup?*

Damaged item claims

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Customers should report visible shipping damage within 72 hours after delivery. The claim should include the order number, a photograph of the shipping box, and photographs of the damaged product. Keeping the packaging helps the carrier investigation.

How it works

Support reviews a complete claim within two business days. If approved, the customer may choose a replacement when stock is available or a refund to the original payment method. A replacement shipment does not require a second shipping charge.

Limits and exceptions

Damage caused after delivery by dropping, misuse, or unauthorized modification is not treated as shipping damage. Hidden damage should be reported as soon as it is discovered and before the product is repaired.

Key facts

- Report visible shipping damage within 72 hours.
- Complete claims are reviewed within 2 business days.
- Approved replacements ship without an additional shipping fee.

Try asking

- *How soon should visible shipping damage be reported?*
- *How long does support take to review a complete claim?*

Payment methods and authorization

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Northstar accepts Visa, Mastercard, American Express, and eligible digital wallets at checkout. The billing address must match the address held by the payment provider. Gift cards can be combined with one credit or debit card.

How it works

A temporary authorization may appear before an order ships. This is a bank hold, not a second completed charge. The final charge is submitted when the order enters fulfillment. The bank controls how quickly an unused authorization disappears.

Limits and exceptions

Northstar does not accept cash, personal checks, or payment by telephone. Split payment across two bank cards is unavailable. If a payment is declined, customers should contact their bank before submitting the order again.

Key facts

- Accepted cards include Visa, Mastercard, and American Express.
- The final charge is submitted when fulfillment begins.
- Two bank cards cannot be combined for one order.

Try asking

- *When is the final payment charge submitted?*
- *Can a customer split payment across two bank cards?*

Account security and sign-in

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Each customer account should use a unique password that is not reused on other websites. Northstar recommends at least 12 characters and a password manager. Passwords are stored using a one-way hash and are not visible to support staff.

How it works

Two-step verification can be enabled in Security Settings using an authenticator app. When enabled, a sign-in from a new device requires both the password and a rotating verification code. Recovery codes should be saved somewhere separate from the device.

Limits and exceptions

If a customer suspects account access by another person, they should reset the password and revoke active sessions. Support may temporarily lock an account while ownership is checked. Staff will never ask a customer to send a password or verification code.

Key facts

- Use a unique password of at least 12 characters.
- Two-step verification is available in Security Settings.
- Support never asks for passwords or verification codes.

Try asking

- *What password length does Northstar recommend?*
- *Will support ask for a one-time sign-in code?*

Privacy and data retention

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Northstar collects account details, order records, and support messages to operate the store and help customers. Payment card numbers are handled by the payment processor. Northstar stores only a payment token and the last four card digits for receipts and account management.

How it works

Order and tax records are retained for seven years where required for accounting. Support conversations are retained for 24 months after the case closes. Customers may request a copy of account data from Privacy Settings and usually receive it within 30 days.

Limits and exceptions

Account deletion removes profile details after identity verification. Records that must be kept for tax, fraud prevention, or an open dispute are retained until the legal or operational hold ends. Deletion does not cancel an active subscription automatically.

Key facts

- Order and tax records: up to 7 years.
- Support conversations: 24 months after case closure.
- Account data copy requests are usually completed within 30 days.

Try asking

- *How long are support conversations retained?*
- *Does deleting an account cancel an active subscription?*

Accessibility support

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

The online store is designed for keyboard navigation and current screen-reader software. Product images include text descriptions where available. Customers can request an alternate format for invoices, instructions, and product information at no additional charge.

How it works

Accessibility requests can be sent through the Support form with the subject line Accessibility Assistance. The team acknowledges a request within two business days and aims to provide the requested format within five business days.

Limits and exceptions

If a checkout control is not usable with assistive technology, a support agent can help complete an order without an additional service fee. Customers should not send sensitive health information in the request.

Key facts

- Alternate-format documents are provided at no extra charge.
- Requests are acknowledged within 2 business days.
- The target delivery time for alternate formats is 5 business days.

Try asking

- *How quickly does Northstar acknowledge an accessibility request?*
- *Is there a fee for an alternate-format invoice?*

Product care and cleaning

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Unplug powered products before cleaning. Use a soft, dry cloth on the exterior and avoid abrasive pads, bleach, and solvent cleaners. Liquids must not enter vents, charging ports, seams, or control openings.

How it works

For removable fabric covers, follow the sewn care label. Unless that label says otherwise, wash in cold water on a gentle cycle and air dry. Do not tumble dry a cover that contains foam or a water-resistant coating.

Limits and exceptions

Cleaning damage caused by an unapproved chemical is not covered by the product warranty. If a product becomes unusually hot, emits an odor, or shows exposed wiring, stop using it and contact support before cleaning or repair.

Key facts

- Disconnect power before cleaning.
- Use a soft dry cloth on electronic surfaces.
- Air dry removable covers unless the care label says otherwise.

Try asking

- *Should a powered product remain plugged in while cleaning?*
- *How should a removable cover usually be dried?*

Replacement parts and repairs

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Common replacement parts can be ordered through the Parts section of the website. Customers should confirm the model number printed on the product label before ordering. Parts are not interchangeable across every product generation.

How it works

A standard repair assessment costs 20 dollars. The assessment fee is waived when the customer approves a paid repair within 14 days of receiving the estimate. The estimate lists labor, parts, and expected turnaround time.

Limits and exceptions

Products still covered by warranty do not pay the assessment fee for an approved warranty claim. Repairs made by an unauthorized shop may affect later warranty coverage. Replaced parts are recycled when facilities are available.

Key facts

- Repair assessment fee: 20 dollars.
- Assessment is waived if a paid repair is approved within 14 days.
- Warranty claims do not pay an approved claim assessment fee.

Try asking

- *How much is the standard repair assessment?*
- *When is the assessment fee waived?*

Gift cards and promotional codes

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Northstar gift cards have no expiration date and may be used for merchandise and standard shipping. They cannot be exchanged for cash except where required by local law. The remaining balance stays on the card after a partial purchase.

How it works

Only one promotional code can be applied to an order. A code must be entered before payment is submitted. Promotional discounts do not apply to gift card purchases, taxes, or previously placed orders.

Limits and exceptions

If a gift card code is lost, support may look up the balance when the purchaser provides the original receipt. Northstar cannot replace a card when there is no proof of purchase or when the code has already been redeemed.

Key facts

- Gift cards do not expire.
- Only one promotional code can be used per order.
- Promotional codes cannot be applied after payment.

Try asking

- *Do Northstar gift cards expire?*
- *How many promotional codes can be applied to one order?*

International orders and customs

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

International delivery is available to Canada, the United Kingdom, and Australia. The checkout page displays the delivery fee and estimated arrival window for the destination. Some products are restricted in certain regions due to electrical or safety rules.

How it works

Import duties and local taxes are calculated by the destination authority unless checkout explicitly states that they are prepaid. The carrier may collect these charges before delivery. Northstar cannot change an authority assessment after the parcel ships.

Limits and exceptions

The customer is responsible for checking that a product can legally be imported. If a parcel is refused because required charges were not paid, the return shipping cost may be deducted from any refund.

Key facts

- Available regions include Canada, the UK, and Australia.
- Import duties may be collected by the carrier at delivery.
- Customers should check local product restrictions before ordering.

Try asking

- *Which countries are listed for international delivery?*
- *Who may collect unpaid import duties?*

Subscription cancellation

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Customers can cancel a recurring subscription from Account Settings at any time. The cancellation takes effect at the end of the paid billing period, so access continues until that date. The next renewal is not charged after cancellation is confirmed.

How it works

A confirmation email is sent within ten minutes. Customers should keep the email for their records. If no confirmation arrives, they should check the account status and contact support before the renewal date.

Limits and exceptions

Annual subscriptions are refundable within 14 days of a renewal charge if no subscription benefit was used during the renewed period. After 14 days, cancellation stops future renewals but does not normally refund the current period.

Key facts

- Cancellation stops future renewals.
- Access remains through the end of the paid period.
- Annual renewal refund window: 14 days if no benefit was used.

Try asking

- *When does subscription cancellation take effect?*
- *What is the annual renewal refund window?*

Order tracking and delivery issues

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

A tracking link is emailed after the carrier scans the parcel. It may take up to 24 hours after dispatch for the first scan to appear. Customers can also open Order History to view the tracking number and carrier name.

How it works

If tracking has not changed for three business days, contact support with the order number. If a parcel is marked delivered but cannot be found, check the delivery location and ask household members before opening a missing-parcel case.

Limits and exceptions

A missing-parcel investigation can take five business days. Northstar may send a replacement or issue a refund after the carrier completes its investigation. A parcel delayed by weather is not treated as lost while the carrier reports active movement.

Key facts

- First carrier scan may take 24 hours.
- Contact support after 3 business days without a tracking update.
- A missing-parcel investigation may take 5 business days.

Try asking

- *How long can the first tracking scan take?*
- *When should a customer contact support about tracking?*

Price adjustments

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

A customer may request a price adjustment within seven calendar days after purchase when the same item is reduced on Northstar.com. The item must be in stock and sold directly by Northstar at the time the request is reviewed.

How it works

To request an adjustment, provide the order number and product link through the support form. Approved adjustments are returned to the original payment method within seven business days. Only one adjustment is available for each item in an order.

Limits and exceptions

Price matching does not apply to marketplace sellers, clearance events, bundles, or limited-time coupon codes. A lower price caused by a different product configuration is not an eligible comparison.

Key facts

- Price adjustment window: 7 calendar days.
- The matching item must be in stock and sold by Northstar.
- One adjustment is allowed per item.

Try asking

- *How many days does a customer have to request a price adjustment?*
- *Do marketplace prices qualify for a price adjustment?*

Returns for international customers

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

International customers may request an eligible return within 30 calendar days after delivery. The customer arranges and pays return shipping unless the product arrived defective or the wrong item was sent.

How it works

The return parcel should include the order number and a copy of the return authorization. Customers should use a tracked service and retain the receipt until the refund is complete. Import duties paid at delivery are not refunded by Northstar.

Limits and exceptions

Refunds are issued in the original transaction currency. The card issuer determines the converted amount and may apply an exchange-rate difference. A return that arrives after the window may be refused or returned at the customer’s expense.

Key facts

- Eligible international returns must be requested within 30 days.
- Return shipping is customer-paid unless Northstar made an error.
- Import duties are not refunded by Northstar.

Try asking

- *Who normally pays return shipping for an international order?*
- *Are import duties refunded?*

Support channels and service hours

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Customer support is available by web form and email from Monday through Friday, 9:00 a.m. to 6:00 p.m. Eastern Time, excluding public holidays. The support form accepts order questions, product help, and accessibility requests.

How it works

The normal first-response target is one business day. Complex warranty or carrier investigations may take longer, but the agent should provide an update every three business days while the case remains open.

Limits and exceptions

Northstar does not provide telephone support. Social-media messages are not an official support channel and should not include order numbers, payment details, or other personal information.

Key facts

- Support hours: weekdays, 9 a.m.-6 p.m. Eastern Time.
- First-response target: 1 business day.
- Open complex cases receive an update every 3 business days.

Try asking

- *What are the support hours?*
- *How often should support update a complex open case?*

Recycling and end-of-life products

This is synthetic example material, written only to test document ingestion and question answering. Treat each section as a separate source passage; answers should quote or summarize the rules below.

Policy

Small electronic products can be returned through the Northstar take-back program. Customers can print a prepaid label from the Recycling page for one item per package. Batteries should be removed when the product design allows safe removal.

How it works

Large products are accepted at participating municipal recycling centers. The Recycling page lists locations by postal code and explains which materials each center accepts. Northstar does not collect large items from a home.

Limits and exceptions

A product that contains a swollen or damaged battery should not be mailed. Customers should contact the local hazardous-waste service for safe handling instructions. Recyclable packaging can be placed in the local curbside program where accepted.

Key facts

- The take-back label covers one small electronic item per package.
- Large items go to participating municipal recycling centers.
- Damaged batteries must not be mailed.

Try asking

- *How many small electronics can be sent per prepaid label?*
- *Can a product with a damaged battery be mailed?*
